The Honorable Blair Lee III
Acting Governor
State House
Annapolis, Maryland 21401

Dear Governor Lee:

Enclosed is the second volume of the Third Annual Desegregation Status Report. This report includes student related data for Fall 1976: applications, acceptances, and actual enrollments at the State colleges and universities; residence of students enrolled; financial assistance awards; degrees granted; and student progression rates and reasons for students not returning to the campuses in Fall 1976. The data were collected in accordance with the provisions of the Maryland Plan for Completing the Desegregation of the Public Postsecondary Education Institutions in the State.

The data indicate that, in general, the rates of acceptance at a college or university for students who have applied do not appear to differ for minority and white students. The percentages of Maryland residents among black and white students enrolled in 1976 were the same as in 1975.

On the undergraduate level, 45% of financial aid awards were granted to black students and 34% to white students; on the graduate level, 16% of the awards were granted to black students compared to 78% to white students. While the total number of degrees awarded has increased by 3% since 1975, the number of degrees awarded to black students has increased by 14% in the same time period; this increase occurred both at the undergraduate and at the graduate/professional level.

The student progression data show that black students who were enrolled for the first time in 1975 returned to the same campus in Fall 1976 at a somewhat similar rate to white students and are advancing toward graduation at a slower rate.

Sincerely,

Sheldon H. Knorr
Commissioner

INTRODUCTION

This is the second volume of the Third Annual Desegregation Status Report, February 1977. This volume includes student related data on applications, acceptances and actual enrollments at Maryland public colleges and universities, residence of students, financial aid awards, degrees granted and student progression. Other volumes of the report are:

Volume I	Summary Tables
Volume III	Student Enrollment by Program
Volume IV	Employees and Board Members

The data for this report were collected in Fall 1976 with the cooperation of the higher education institutions and segmental boards. The Third Annual Desegregation Report has been prepared and published in accordance with the provisions of the Maryland Plan for Completing the Public Postsecondary Education Institutions in the State.

SECTION A

APPLICATIONS, ACCEPTANCES, ACTUAL ENROLLMENTS

FALL 1976

Brief Description of Table 1

Applications, Acceptances, Actual Enrollments

Fall 1976

Table 1 presents data for individual institutions on the number of students who applied for fall 1976 admission, the number of these applicants who were accepted, and the number who then actually enrolled. Since many students apply for admission to more than one institution, aggregates of these data would be meaningless. Table 1 presents data for nineteen community colleges, seven state colleges/universities and all five campuses of the University of Maryland.

The community colleges generally have a high rate of actual enrollees over total number of applicants; they reported rates ranging from 57% up to 96%, with an average rate of 83 actual enrollees per hundred applicants.

The State college/universities reported a range of 56% to 100% undergraduate acceptance rate: number of students accepted over total number of applicants. In only one predominantly white college was the undergraduate acceptance rate considerably lower for blacks than for the total number of students (49% for blacks vs. 77% for all students). The undergraduate enrollment rate (students actually enrolled over total number of students accepted) at the State colleges/universities ranged from 53% to 93%.

The University of Maryland at College Park reported an undergraduate acceptance rate of 83% for all students and 68% for black students only; its undergraduate enrollment rate was 54%.

Directions for Use of Table 1:

Applications, Acceptances, Actual Enrollments

Fall 1976

Table 1 presents detailed information about the number of students applying for admission fall 1976 at Maryland public postsecondary institutions, the number of applicants who were accepted for admissions, and the number of applicants who actually enrolled. The data are organized by the following categories:

Class level: Undergraduate level applicants are presented first, followed by Graduate, and First Professional level.

Standing in program: students seeking admission to each of the three class levels as first-time students (i.e. not previously enrolled at that level) are presented first, followed by students who are applying as transfer students (i.e. transferring from another institution).

Geographic origin: refers to the location of the educational institution (secondary or postsecondary) last attended by the applicant if attendance has been within the last year - if not, then the geographic origin is determined by the applicant's residence.

For all class levels, origins consist of: from within the county in which the reporting institution is located; from outside the county, but within Maryland; from outside Maryland, but within the U.S.; or from outside the U.S.

In the case of graduate and first-professional level applicants, this table also reports whether or not the applicant was previously enrolled elsewhere in the institution.

Directions for Use of Table 1 (Con't.)

SECTION B

RESIDENCE BY COUNTY OF ORIGIN

FALL 1976

Brief Description of Summary Tables

Table 2a Summary of Residence by County of Origin for Maryland Residence, Fall 1976

Table 2a presents information on the county of origin for Maryland residents enrolled Fall 1976. The data represents all Maryland public postsecondary education institutions and include full and part-time students on the undergraduate, graduate and first professional degree levels.

The institutions report a total of 160,917 students enrolled Fall 1976 who were Maryland residents. Of the students, the largest percent came from Baltimore County (21%), Prince George's County (18%), Montgomery County and Baltimore City (17% each).

For black students, 29,464 were reported as Maryland residents: 54% came from Baltimore City and 20% from Prince George's County. The other minority students were mostly from Prince George's and Montgomery Counties: 47% of Indian Americans, 63% of Asian Americans and 59% of Hispanics were from these two counties.

Table 2b Summary of Residence Status for All Students, Fall 1976

Table 2b presents information on residence status for all students enrolled in Maryland public postsecondary institutions Fall 1976, including full and part-time undergraduate, graduate and first-professional degree students. The institutions reported 180,657* students enrolled: 89% were considered Maryland residents, 7% were from out-of-state, 2% were foreign and 2% were of unknown residence.

Large percentages of students of all races were reported as Maryland residents: 88% of black students, 94% of white students, 88% of Indian American students, 92% of Asian American students and 88% of Hispanic students were from Maryland. The percentages of minority students attending college in Maryland from out-of-state are larger than the percent of white students from out-of-state: 11% of black students, 12% of Indian American students, 8% of Asian American students and 12% of Hispanic students were from out-of-state compared to 6% of white students.

* The total number of students reported here is slightly smaller than the number reported in Table 7, Student Enrollment by Program, Fall 1976. Two separate forms were used for data collection for these tables; the difference is less than 1% of the number reported here.

SECTION C

FINANCIAL ASSISTANCE TO STUDENTS

FALL 1976

Brief Description of Summary Tables

Table 4a Summary of Financial Assistance to Undergraduate Students, Fall 1976

Table 4a presents summary information on the number of grants, scholarships, loans, and student employment awards given to undergraduate students at Maryland public colleges and universities. The average amounts of these awards are also illustrated. Data are included from eighteen community college campuses, all eight state four year college/ university campuses and four University of Maryland campuses.

A total of 62,157 financial aid awards were reported by these institutions, at an average of $622: 32,183 (average amount $609) were grants; 10,898 (average amount $728) were loans; 9,393 (average amount $498) were scholarships; and 9,683 (average amount $663) were student employment awards.

Black students received 55% of the grants, 44% of the loans, 15% of the scholarships, and 42% of the student employment awards. The black students average award amounts were consistently higher than the white students average award amounts. Other minorities students received 2% of all financial awards.

Table 4b Summary of Financial Assistance to Graduate and First-Professional Students, Fall 1976

Table 4b illustrates the number and average amount of financial aid awards to graduate and first-professional degree students at Maryland public four year college/universities and four University of Maryland Campuses. A total of 4,438 awards were reported, with an average award of $2,235: 1,365 were grants (average amount $1,230); 1,122 were loans (average amount $1,482); and 1,951 were student employment awards (average amount $3,371).

Black students received 25% of the grants, 21% of the loans, and 7% of the student employment awards. The black students grants average award amount was larger than the white students; but the Loans and Student Employment average award amounts were smaller than the white students. Other minorities students received 2% of all financial aid.

Table 4c Summary of State Scholarship Program Awards

Table 4c presents information about the number and average amounts of awards made from the three State Scholarship Programs: General State Scholarships; House of Delegate Scholarships; and Senatorial Scholarships (see the Glossary, Appendix A for descriptions of these programs). These scholarships are only available to undergraduate students. The institutions reported a total of 1,200 General State Scholarship awards (average amount of $423), 306 House of Delegate Scholarship awards (average amount of $571), and 3,823 Senatorial Scholarship awards (average amount of $360). Large percentages of these scholarships are reported to have been given to students whose race was unknown. These scholarships are distributed by the State Scholarship Board; recipients are chosen by the State Scholarship Board for General State Scholarships, the Maryland State Delegates for House of Delegate Scholarships, the Maryland State Senators for the Senatorial Scholarships. These data were gathered from the institutions. Caution must be taken in interpreting the data by race categories because of the large numbers of recipients whose race was unknown. The reader is also cautioned that these data do not represent all awards under these programs. Students attending private institutions are eligible for these awards.

Financial Assistance to Students

Fall 1976

Table 5 presents detailed information about the number and amount of financial aid awards granted to undergraduate students and graduate/first professional students within different types of financial aid categories, as well as the average amounts of the awards.

The data are organized by the following categories:

Class Level: Undergraduate student data is presented first, followed by Graduate and First Professional student data, with these two class levels combined.

Financial aid Categories: Grants are awards granted on the basis of need and require no repayment in service or cash (e.g. BEOG, Other-Race Grants, etc.); Loans are awards which require repayment in service or cash upon completion of the degree program or termination of enrollment (e.g. NDSL, State insured loans, etc.); Scholarships are awards which require no repayment and which usually have criteria based on academic skills and attainment instead of, or in addition to, demonstrated financial need (e.g. General State Scholarship, etc.); Student Employment includes awards which require the student to work part-time for receipt of the award (e.g. College Work Study, graduate assistantships, etc.). Refer to the Glossary (Appendix A) for further detail of the financial aid programs.

Number and amount of awards, and average amounts: Within each aid program, the Number of awards granted, the Total Dollar Amount, and the Average Amount of the award for each race and sex category is given.

SECTION D

DEGREES AWARDED JULY 1, 1975 TO JUNE 30, 1976

Brief Description of Trend Tables

Trends in Degrees Granted by Program 1975-1976

Table 6a Certificate and Associate Degrees

Table 6a presents information on the number of certificate and associate degrees awarded by programs were in 1975 and 1976. Data are included from eighteen* community college campuses, all eight state college/universities, and all five campuses of the University of Maryland.

The total number of certificate and associate degrees reported by Maryland public postsecondary institutions increased from 7510 in 1975 to 8116 in 1976. The number of degrees awarded to black students increased from 1975 (773) to 1976 (870); likewise, the number of degrees awarded to other minorities students increased from 59 to 89. A large percentage of degrees were awarded to persons whose race was unknown. Across groups, the increase centered in the area of Interdisciplinary Studies: from 2,193 degrees awarded in 1974-1975, to 4,344 awarded in 1975-1976.

Table 6b Bachelors Degrees

The total number of Bachelor's degrees awarded decreased from 13,218 in 1974-1975 to 13,108 in 1975-1976. The areas with the largest decreases were Education and Social Sciences; other areas which decreased from 1975 to 1976 were: Area Studies, Biological Sciences, Engineering, Fine Arts, Foreign Languages, Letters and Psychology.

While there was an overall decline, the number of bachelor's degrees awarded to black students increased from 1,431 in 1974-1975 to 1,671 in 1975-1976. All areas benefited from this increase except Mathematics and Physical Sciences. The number of Bachelor's degrees awarded to other minorities decreased from 242 in 1975 to 228 in 1976. However, caution should be taken in interpreting these data, because 18% of the Bachelor's degrees recipients were of race unknown.

Table 6c Master's Degrees

The number of Master's degrees awarded have increased from 3,020 in 1975 to 3,232 in 1976. The number of Master's degrees awarded to black students appear to have increased in 1976; however, because 20% of the 1975 degrees and 10% of the 1976 degrees were awarded to students whose race was unknown, caution should be taken in interpreting racial composition data. In general, the number of Master's degrees have increased in the fields of Biological Sciences, Business and Management, Communications, Education and Psychology.

* Wor-Wic Tech Community College enrolled its first students Fall 1976.

Brief Description of Trend Tables (Con't.)

Table 6d Doctorate Degrees

The total number of doctorate degrees awarded decreased from 400 in 1975 to 389 in 1976. Sizable decreases were in the fields of Agriculture and Natural Resources, Engineering, and Mathematics. There was a sizable increase in Physical Sciences. Since 43% of the 1975 degrees and 21% of the 1974 degrees were awarded to students of unknown race, an accurate interpretation of trends in the racial composition data cannot be made.

Table 6e First Professional Degrees

While the number of first professional degrees awarded in the field of Law decreased from 559 to 482, the number of degrees increased in the fields of Dentistry and Medicine. The number of degrees awarded to black students increased in Dentistry and Law, and remained the same in Medicine. Other minorities students had a sizable increase in the number of Law degrees.

SECTION E

STUDENT PROGRESSION AND REASONS FOR STUDENTS NOT RETURNING, FALL 1976

BRIEF DESCRIPTION OF SUMMARY TABLES

Summary of Student Progression and Reasons for Not Returning

Fall 1976

Table 8a FULL-TIME UNDERGRADUATE STUDENTS

Table 8a illustrates the numbers and percentages of 1975 full-time, first-year undergraduate enrollees who returned or did not return to the reporting institutions in Fall 1976. It also shows the percentages of these students who advanced to second year status or remained in first-year status, and the percentages who did not return for academic reasons or other reasons. Data were received from 15 of 18* Community College campuses, all eight State college/university campuses, and four of the five campuses of the University of Maryland.

The institutions reported a total of 21,016 freshmen enrolled Fall 1975: 3,673 were black, 15,937 were white, 378 were other American minorities, and 1,028 were foreign students or students whose race was unknown. The retention rate of these students after one year was high: 64% of black students, 70% of white students and 74% of other minority students returned in Fall 1976. The reader is cautioned that these figures are a conservative estimate of the true retention rate: they do not reflect students who may have transferred to other colleges - they are "within institution" retention rates.

The rate at which returning students advance to second-year status after their first year of study differ by race. Black students are advancing at a slower rate than white or other minority students. Twenty-two percent (22%) of the returning black students, 53% of white students, 51% of Indian American students, 56% of Asian American students, and 53% of Hispanic students had advanced to second-year status.

The reasons for students not returning to the reporting institutions also differ by race. Twenty-six percent (26%) of the non-returning black students did not return for reasons of academic failure, compared to 13% of white students, 33% of Indian American Students, 3% of Asian American students, and 17% of Hispanic students.

* The data do not include Wor-Wic Tech Community College which enrolled students for the first time in Fall 1976.

Table 8b FIRST PROFESSIONAL DEGREE STUDENTS

The professional schools of the University of Maryland and University of Baltimore reported 877 full-time, first-year students enrolled Fall 1975: 66 blacks, 12 Asians, 7 Hispanics, 784 whites, and 8 of unknown race. Ninety percent (90%) of the black students returned in 1976, all of the Asian American students, 86% of the Hispanic, and 89% of the white students.

The rates at which returning students advance to second-year status after their first year of study differ by race. Black students are advancing at a slower rate than white or other minority students: 86% of the returning black students, 100% of Asian American and Hispanic students, and 95% of white students had advanced to second-year status.

Twenty-nine percent (29%) of the non-returning black students did not return for reasons of academic failure; this was the case with 11% of the non-returning white students.

DIRECTIONS FOR USE OF TABLE 9

Student Progression and Reasons for Students Not Returning Fall 1976

Table 9 presents detailed information on the progression of full-time students who were enrolled in Maryland public colleges and universities in Fall 1974 or Fall 1975 as freshmen or first-year professional students, and information on reasons why some of these students did not return to the reporting institutions in Fall 1976. Unfortunately, the Fall 1974 data reported here for several institutions do not match the data for the same students reported in last year's Second Annual Desegregation Status Report. This was the case with seven community colleges and one state college. While some of these institutions' discrepancy was minor (less than 5%), others were fairly large (up to 58%). Hence, the reader should use caution in interpreting the 1974 progression rates of those institutions and of the Public Statewide Total aggregate.

CLASS LEVEL: Undergraduate students are presented first, followed by first professional degree students where appropriate.

FALL 1974/1975 ENROLLMENT: Number of first-time students enrolled in Fall 1974 or Fall 1975.

PROGRESSION RATES: For those students enrolled in Fall 1974, the data indicate the number who, in Fall 1976 advanced to 3rd year status, advanced to 2nd year status, remained in 1st year status, or did not return.

For those students enrolled in Fall 1975, the data indicate the number who, in Fall 1976 advanced to 2nd year status, remained in 1st year status, or did not return.

REASONS FOR NOT RETURNING: For those students who did not return to the reporting institution Fall 1976, the numbers who did not return for reasons of academic failure, graduation or objective obtained, or other reasons are reported.
